

CORPORATE GOVERNANCE STATEMENT

From 28th September 2018 as an AIM company, the Company is required to maintain on its website details of a recognised corporate governance code, how the Company complies with this code and an explanation of any departure from the code. The information will need to be reviewed annually and the website should include the date on which the information was last reviewed. This is likely to be reviewed at the same time as the Annual Report and Accounts are prepared. The Directors have sought to address these new requirements in a timely manner and have set out below the Company's Corporate Governance Report.

The Directors recognise the importance of sound corporate governance. As a company whose shares are traded on AIM, the Board has concluded that it will seek to comply with the Quoted Companies Alliance's Corporate Governance Code ("the QCA Code"). In addition, the Directors have adopted a code of conduct for dealings in the shares of the Company by directors and employees and are committed to maintaining the highest standards of corporate governance. Paul Ryan, in his capacity as Non-Executive Director, has assumed responsibility for ensuring that the Company has appropriate corporate governance standards in place and that these requirements are followed and applied within the Company as a whole. The corporate governance arrangements that the Board has adopted are designed to ensure that the Company delivers long term value to its shareholders and to give shareholders the opportunity to express their views and expectations for the Company in a manner that encourages open dialogue with the Board. The Board recognises that its decisions regarding strategy and risk will impact the corporate culture of the Company as a whole and that this will impact the performance of the Company. The Board is very aware that the tone and culture set by the Board will greatly impact all aspects of the Company as a whole and the way that employees behave. A large part of the Company's activities is centred upon what needs to be an open and respectful dialogue with employees, clients and other stakeholders. Therefore, the importance of sound ethical values and behaviours is crucial to the ability of the Company successfully to achieve its corporate objectives. The Board places great importance on this aspect of corporate life and seeks to ensure that this flows through all that the Company does.

The key governance related matter that occurred during the financial year ended 31 December 2017 was the appointment of Trevor Brown to the Board. Post year end saw the retirement of Graham Peck, Iain McLure and Gerard Dempsey as directors of the Company and from all their positions within the Group and the appointment of Dr Nigel Burton as Non-Executive Director all in January 2018. The Board successfully implemented this transition and acted effectively in order to ensure continuity.

Corporate Governance Report

The QCA Code sets out 10 principles that should be applied. These are listed below together with a short explanation of how the Company applies each of the principles:

Principle One

Business Model and Strategy

The Board has concluded that the highest medium and long term value can be delivered to its shareholders by the adoption of a single strategy for the Company. The Company's interests in both Geocurve and Gyrometric are active and strategic investments and these are both companies where the Company continues to hold significant stakes, where we remain actively involved with the development of the company with, the Company being represented on the board of the entities and where we believe that the returns that are possible are material. The Company will continue to seek to grow both businesses organically and will seek out further complementary acquisitions that create enhanced value.

Principle Two

Understanding Shareholder Needs and Expectations

The Board is committed to maintaining good communication and having constructive dialogue with its shareholders. The Company has close ongoing relationships with its private shareholders.

Institutional shareholders and analysts have the opportunity to discuss issues and provide feedback at meetings with the Company. In addition, all shareholders are encouraged to attend the Company's Annual General Meeting. Investors also have access to current information on the Company through its website, www.remotemonitoredsystems.com, and via Trevor Brown, CEO who is available to answer investor relations enquiries.

Principle Three

Considering wider stakeholder and social responsibilities

The Board recognises that the long term success of the Company is reliant upon the efforts of the employees of the Company and its contractors, suppliers, regulators and other stakeholders. The Board has put in place a range of processes and systems to ensure that there is close oversight and contact with its key resources and relationships. For example, all employees of the Company participate in a structured Company-wide annual assessment process which is designed to ensure that there is an open and confidential dialogue with each person in the Company to help ensure successful two way communication with agreement on goals, targets and aspirations of the employee and the Company. These feedback processes help to ensure that the Company can respond to new issues and opportunities that arise to further the success of employees and the Company. The Company has close ongoing relationships with a broad range of its stakeholders and provides them with the opportunity to raise issues and provide feedback to the Company.

Principle Four

Risk Management

In addition to its other roles and responsibilities, the Audit and Compliance Committee is responsible to the Board for ensuring that procedures are in place and are being implemented effectively to identify, evaluate and manage the significant risks faced by the Company. The risk assessment matrix below sets out those risks, and identifies their ownership and the controls that are in place. This matrix is updated as changes arise in the nature of risks or the controls that are implemented to mitigate them. The Audit and Compliance Committee reviews the risk matrix and the effectiveness of scenario testing on a regular basis. The following principal risks and controls to mitigate them, have been identified:

Activity	Risk	Impact	Control(s)
Management	Recruitment and retention of key staff	Reduction in operating capability	Stimulating and safe working environment Balancing salary with longer term incentive plans
Regulatory adherence	Breach of rules	Censure or withdrawal of authorisation	Strong compliance regime instilled at all levels of the Company
Strategic	Damage to reputation	Inability to secure new capital or clients	Effective communications with shareholders coupled with consistent messaging to our customers
	Inadequate disaster recovery procedures	Loss of key operational and financial data	Robust compliance Secure off-site storage of data
Financial	Liquidity, market and credit risk	Inability to continue as going concern Reduction in asset values	Robust capital management policies and procedures
	Inappropriate controls and accounting policies	Incorrect reporting of assets	Appropriate authority and investment levels as set

by Treasury and Investment Policies Audit and Compliance Committee

The Directors have established procedures, as represented by this statement, for the purpose of providing a system of internal control. An internal audit function is not considered necessary or practical due to the size of the Company and the close day to day control exercised by the executive directors. However, the Board will continue to monitor the need for an internal audit function. The Board works closely with and has regular ongoing dialogue with the Company financial controller and has established appropriate reporting and control mechanisms to ensure the effectiveness of its control systems.
